

HEAR OUR VOICE WORKSHOP

for kids! 

Hello William, I'm Nicole! I look forward to meeting you on
Sunday at the workshop.

Your opinion is important so we can find out how to include kids in research in
ways that are fun and interesting.

WHAT WILL HAPPEN IN THE WORKSHOP?

The workshop will take about 1 hour
and there will be 4–6 kids around the
same age as you at the workshop.

In the workshop we will play a few games, have some snacks and do an
activity while I ask the group some questions to find what you think it is
important for adults to know when they involve kids in research.

I will record the group talking, but everything you say will be
anonymous – which means no-one will be able to link what
you say with you. You can say as much as you want; if you
don't want to answer any questions, that is ok too.

Look forward to seeing you there!

Nicole

You will receive a
certificate and a small
gift as a thank you for
participating.
